About This Game

WHAT IS A TEST SERVER?:
The Just Survive Test Server allows players to help us evaluate and test the newest items, systems and gameplay in Just Survive before they are patched to the main servers. Your feedback is invaluable as we continue to create this awesome game! Please note that as with Early Access, you can expect bugs, crashes and play interruptions on this new content."

In Just Survive, the zombie virus has crippled civilization. Corrupted by the need to survive, gone are the comforts of society as a new normal permeates the world. You are one of the last remaining humans. Every choice matters, every moment is borrowed time, and every breath could be your last. If you don't want to join the dead -- or the undead -- you'll have to be cutthroat, resourceful, and alert at all times. Scavenge, craft, and build to protect yourself from zombies, roaming beasts, and perhaps the deadliest threat of all – fellow humans. Do you have what it takes to Just Survive?

Visit the Just Survive website https://www.justsurvive.com for more info!

This game is actually just peer♥♥♥♥♥♥
They killed it. Developers ******* this game where it hurts, daybreak have ****** up the battle royal, now this, the devs have no brain, they are selfish tossers who milk the games for ££££. Let this game die, do NOT BUY it, save yourself some money as there is plenty of alternatives rather than this pile of♥♥♥♥♥♥♥. Better than the main servers because the community is better but if I honestly had a choice between playing this game or playing in traffic... bring on the traffic!. Dude, I need this game back in my life. both maps. Please i did so much work debugging it with h1micheal derelict and h1ben. the revenue from skins alone is enough to support the costs and yield a profit. and the community benefits in trading them as well. If you aren't bringing this back, then please finish everquest next. i am also a landmark purchaser. I feel like i have lost more than i gained and put in all that work for nothing, we all just wanna come home <3. THIS GAME IS DOG♥♥♥♥♥♥LOW FPS COZ♥♥♥♥♥♥SUCKING ♥♥♥♥♥♥S BUILD BASES IN THE AIR TO LAG THE GAME OUT NICE ONE DAYBREAK YOU GOOD AT BREAKING GAMES DONT BUY IT EVEN ON PVP YOU BUILD A BIG BASE IT TAKES 2 MINS TO GET RAIDED NO POINT IN THIS GAME ENY MORE AND THE STASH CAN GET BLOWN UP LOSEING ALL ITEMS WHAT IS THE POINT PVE ALL THE♥♥♥♥♥♥SUCKERS HAVE THE CARS IN THE BASE SO TAKES AGAES TO GET A SHACK PEACE OUT

i think this game is just amazeing been playing it for forever even threw all glitchs and all alpha matters it just keeps getting better couldnt ask for a more amazeing game threw and threw

THANK YOU
day break
FOR BOTH MAPS. BEST GAME EVER MADE!. money grabbing theives...... I want me game back. come to pubg!. DONT DO IT just back away and forget u saw anything, it's seriously that bad (cringe). This game was good, but it's going away now. I spent a lot of time playing "Just Survive", mostly when it was just H1Z1. I don't need a refund because I got my moneys worth, even if it was never 'offical'. Appreciate the time we had! Thanks :)
