About This Content

Mr. Foster has been a firm favorite with Killing Floor fans for years now - but he's been all on his own. So we thought it was about time we introduced you all to... Mrs. Foster!

Key features:

She was a scarily-successful commodities trader when she interviewed Foster for a job. He was clearly a no-hoper as a trader - but there was something about him. He was so cool, so suave, so... unique. Unique enough to give her a gas mask of her very own on their first date. It was almost as if he'd known of her certainty that bio-virus-evil would create the flesh-eating-clone-horde and ruin her run of multi-million-pound bonuses. They may not be able to work together in the City - but they can work together to exterminate zeds!

It is awesome!. Firekeeper wouldn't go out with me when i gave her the eyes of her sister wtf. It's definitely one of best VR games with bow mechanics. Headshots are juicy. The setting is a bit silly, but it's matter of flavour I guess.. To unlock all build options and decorations in freeplay mode from other the DLC's you need to launch Marine World instead. Most animals from the DLC's are in there but I'm not sure if all of them were in this DLC because I noticed that I missed 2 fish species. Its possible that some maps and animals from other DLC's are not in Marine World.

If you also have the Fantasy DLC then Dragons,unicorns and mermaids are in Marine world.
If you have the Dino World DLC then the Dino's will also be there in Marine world.

Sadly if you already have a Zoo in one the other DLC's in freeplay mode
and you want all the decorations and buildings you will need to start a new zoo in Marine world.

If you play Marine World for the first time
you will collect 4 cards.
I have received 4 cards when I first played Marine World and none of them were doubles,
they were all different sea animals.

. Very good but a bit too short and a bit "too obvious".. A surprisingly addictive little casual game. Easy to beat, but fun to play. It's a side-scrolling RTS. So there is strategy; exceedingly minimal strategy, but it is there.. I would enjoy this game except for the fact that it says a lot of words are "not in the dictionary" that ARE in the dictionary.

Everyone is complaining about this dlc for the lines, the fact that it isn't free, the fact that Duke has no place in this universe, yadda yadda, whatever.

I would give this a thumbs down if it was done poorly, but it isn't, it's exactly what I expected and what is advertised on the store page.

Jon St. John is great, the lines are good, I mean yeah, they changed only the protagonist's lines, while everyone else says the same things and that's the beauty of it, you take this serious script and add Duke's nonsense, I just love this, makes me laugh, sue me.

Also the price is fine, while this isn't a full conversion or anything, the quality for what it does stands up, they put in the work, they called a VA, they made him record some lines, they put a new model in with animations and put Duke's brand on it.

So how much I paid for this work? 1,24 Euros on sale. What the hell are these entitled people

ing about?

Ahh whatever, I'm having a blast with this. Thanks for this DLC, not a big fan of the game, but I'm definitely enjoying it now.. why do i crash at 61% loading? crashes when you bet over your opponents cash, i cannot even play now...i still love this game, devs please halp (that is help in non drunk). I felt it was a nice upgrade. If you really enjoy this game then i would defiantly consider this DLC.. Probably great fun in 1994 when it was released but didn't age well. I have been playing this on my android tablet since alpha and I decided to try it out on my PC; go to the big screen. The gameplay is still solid. I love the unique political system. The developers do have some more work to do on making the UI better for PC users, but I have faith in th Trese Brothers. I have been playing their games for years on android and they update regularly and strive to improve. In fact they just did a complete overhaul of the main screen UI of this game for all platforms and have pushed out two skin packs for ships. Right now I would give it a 7/10 Solid Gameplay. Good retro style artwork, but a ways to go on making the UI and controls better and more intuitive for PC players. It's a rough diamond at the moment there is a great game in there.. Arma 3 Tools killed my family. Short, but very entertaining visual novel. As others have already said, the music is excellent and really helps set the mood. The endings are easy to figure out but get more complex as you near the True End. Overall a good play, and I hope to see more from these developers in the future!. Dirving the Caterham cars around Brands Hatch, Cadwell Park and Oulton Park is insanely fun and worth the 36,99€

If the seasonpass is on sale it's defently worth picking up. The game used to have a great potential in the very beginning, but sadly, the developer ran out of money and the title has now been abandoned.

Most likely it is better to stay away from it now.
