"Akuma no tsume yo! Yaj\u016b no kiba yo! Ima hitotsu to narite aratana chikara to sugata wo miseyo! Y\u016b\u014d Sh\u014dkan! Araware decha e, subete wo kirisaku senritsu no kedamono! Desut\u014d Shiz\u0101 Be\u0101!". Both of these decks are really fun to play. I'm not the biggest fan of frightfers and patchwork is not in this game, but that's not because it is bad I dislike it because I'm not much good with it(gem knights fan myself). Constellars are really fun to play, I do not think that they are very good. Constellar Pleiades is the highlight of this DLC though, being good in a variety of strategies, including but not limited to: Artifacts, cyber dragons, and even kosmos can go into this.

Overall fun DLC, would not recommend for competitive play though. Sora's challenge deck didn't unlock for me. Is this normal?
